

Jalil Riaz - Frontend Developer

Date of birth: 01/06/2002 | **Place of birth:** Attock, Pakistan | **Nationality:** Pakistani | **Gender:** Male |
Phone number: (+92) 3145475528 (Mobile) | **Email address:** jalilriaz990@gmail.com | **LinkedIn:** [Jalil Riaz](#) |
Address: Islamabad, Pakistan

ABOUT ME

Motivated Junior Frontend Developer with skills in **HTML, CSS, JavaScript, React.js, and responsive design**. I enjoy turning concepts into intuitive, visually appealing websites and continuously improving my technical expertise. With a strong willingness to learn and a collaborative mindset, I am eager to contribute to innovative projects and grow as part of a professional development team.

WORK EXPERIENCE

FRONTEND DEVELOPER

ZAYTRICS – 03/2024 – CURRENT

- Designed and developed responsive web interfaces using **HTML, CSS, JavaScript, TypeScript and React.js**.
- Implemented reusable UI components and optimized code for **performance and scalability**.
- Collaborated with backend developers to integrate **REST APIs** and ensure seamless data flow.
- Used **version control (Git/GitHub)** for collaborative development and project management.
- Actively participated in **code reviews, debugging, and testing** to deliver high-quality applications.
- Applied **responsive design principles** for mobile-first and cross-device compatibility.

WEB DEVELOPMENT INTERN

ZAYTRICS – 10/2023 – 03/2024

- Assisted in developing and maintaining **responsive web applications** using **HTML, CSS, JavaScript, and React.js**.
- Implemented and tested **backend functionalities** with **Node.js and Express.js**.
- Supported database operations using **MongoDB / MySQL**.
- Collaborated with the team to integrate **REST APIs**, ensuring smooth frontend-backend communication.
- Participated in **debugging, testing, and fixing issues** on both client and server sides.
- Used **Git/GitHub** for version control and contributed to collaborative project development.
- Gained practical experience in **UI/UX improvements, code optimization, and documentation**.

EDUCATION AND TRAINING

04/2023 – CURRENT

BS COMPUTER SCIENCE Virtual University of Pakistan

PROJECTS

Digital Product Platform (DPP)

Designed and developed the **frontend interface** of the Digital Product Platform using **React.js, HTML, CSS, and JavaScript**.
Built a **responsive, mobile-first layout** to ensure seamless access across desktop, tablet, and mobile devices. Collaborated with backend developers to integrate **REST APIs**, enabling dynamic data rendering and smooth user interactions.
Implemented **reusable components** and optimized performance for faster load times and better scalability. Focused on **user-friendly navigation, accessibility, and UI/UX improvements**, enhancing overall customer experience.

Participated in **testing, debugging, and code reviews** to ensure high-quality deliverables.
